International broadcasting from Canadian-based stations

Bible Voice Broadcasting

From the High Adventure Gospel Communication Ministries Canada website: "In 1979 High Adventure began as a ministry dedicated to the installation and operation of a strategic radio station in and for the Middle East. The Voice of Hope enjoyed support from the Christian community across the world as its daily multi language broadcasts reached into hearts and homes in 32 countries from its Medium and Shortwave radio transmitters in South Lebanon. From the beginning, High Adventure Canada enjoyed the help of Canadian individuals to support this strategic radio ministry that eventually grew into a global shortwave radio broadcast system. In 2000, a ministry restructuring process brought about change that led to growth and focus. High Adventure Canada widened its shortwave radio reach, utilizing larger and more strategically located transmitters that expanded its coverage dramatically airing programming under its Bible Voice Broadcast signature. High Adventure also expanded its focus to include indigenous partnerships that added building and supported FM radio in select international city communities. High Adventure FM radio partners now include Middle East, Africa and Indonesia".

Following an enquiry from Zenon Teles concerning a broadcast at 0200-0300 Sunday on 11945 kHz, which did not appear in the BVB schedule for A23 (but which did in the Media Broadcast schedule), Bible Voice confirmed that it is only aired very occasionally, usually every few months. There is now an entry in the BVB B23 schedule which confirms a Sunday broadcast in English at 0200-0215 "occasionally" on 11790 kHz.

United States of America

United States Agency for Global Media (USAGM)

USAGM's mandate comes from multiple pieces of legislation. It is accountable to six bipartisan House and Senate committees. As a federal agency, USAGM's budget request is part of the President's Budget request to the Congress. It provides multimedia broadcast distribution, as well as technical and administrative support to the broadcasting networks. It manages a global network of transmitting sites and an extensive system of leased satellite and fibre optic circuits, along with a rapidly growing Internet delivery system servicing all USAGM broadcasters. It is also the administrative and marketing arm of the Agency. USAGM also oversees five networks: two federal organisations - the Voice of America and the Office of Cuba Broadcasting, which oversees Radio and TV Martí - and three non-profit organisations - Radio Free Europe/Radio Liberty, Radio Free Asia and the Middle East Broadcasting Networks - which receive grants from USAGM.

Voice of America

Voice of America (VOA) is an American international broadcaster funded by the United States Congress. It is the largest and oldest U.S. funded international broadcaster. VOA is headquartered in Washington, D.C., and overseen by the U.S. Agency for Global Media (USAGM).

VOA Flashpoint Global Crisis

Mike Cooper reported on 21 November 2023 that VOA's "Flashpoint Ukraine" had morphed into "Flashpoint Global Crises." The change took place earlier in November. The first daily airing for the programme is at 2200 UTC Mondays through Fridays. (Mike Cooper, WOR iog); "Flashpoint Ukraine" had been a half hour programme from the Voice of America that was added by WRMI to its shortwave schedule on 7 March 2022. It was originally a crowd funded broadcast before being provided by WRMI.

Radio Free Europe / Radio Liberty

Radio Free Europe/Radio Liberty (RFE/RL) is a United States government-funded organisation that broadcasts and reports news, information and analysis to countries in Eastern Europe, Central Asia, Caucasus and the Middle East where it says that "the free flow of information is either banned by government authorities or not fully developed". RFE/RL is a private, non-profit 501(c) corporation supervised by the U.S. Agency for Global Media, an independent government agency overseeing all U.S. federal government international broadcasting services. The organisation has been headquartered in Prague, Czech Republic since 1995. The broadcast of Radio Svoboda at 0400-0500 is provided by Radio Miami International

WJHR Radio International

Owner: Brother Scott Mock (Hill Radio International)

From the website of the True Gospel Independent Baptist Church (<http://mytgibc.com/Missions.php>): "WJHR Radio is a short wave radio station that broadcasts the gospel of Jesus Christ around the world. The station has received letters from Russia, Italy, Germany and South America to just name a few. WJHR broadcasts nothing but preaching 24 hours a day 7 days a week. The station was built and is maintained by Brother Scott Mock who is a faithful member of True Gospel Baptist for many years. If you would like to support or desire more information you can contact Brother Mock through the church or at the radio stations email address: WJHR@usa.com"

Transmitter site: Milton, Florida (50 kW registered but likely to be much lower power - using amateur radio equipment)

Time/UTC	Days	Language	kHz	Transmitter site	Target area
1300-2100	irregular	English	15555-usb	Milton FL	North America

Note: frequency may sometimes fall to 15550 kHz

Background: From DXing.info, 12 December 2009, edited 16 December 2009): WJHR testing for months before regular shortwave broadcasts: A new Christian shortwave station has begun test transmissions in Milton, Florida. WJHR started test broadcasts in mid-November, and will continue testing daily on 15550 kilohertz on the 19 meter band. Tests are conducted at different times between the timeframe of 1500-2300 UTC (from 9 a.m. to 5 p.m. Central time), says station owner Scott Mock in an interview with DXing.info. Mock hopes to be able to begin regular broadcasts in March or April 2010, when frequency may be changed to somewhere around 13.8 MHz. Even during regular operation, WJHR will continue to broadcast only during local daytime hours. WJHR is a Christian radio station and plans to air programming by fundamentalist Baptist churches. "Right now I am financing it myself, but eventually churches will be donating money to keep it on the air," Mock explains. Unused airtime will be available for others as well. "If people want to buy airtime, we'll certainly sell it," Mock says. A 50-kilowatt transmitter and an antenna directed north are located in Milton, close to Pensacola in the Florida Panhandle. Mock says he has had some antenna problems, and is currently in the process of getting the antenna replaced. Transmitter power is now around 10 kW, but will increase to the maximum 50 kW by the time regular broadcasts begin. There is no studio, and all programming is pre-recorded. "It's not a fancy operation, but it gets the job done", Mock describes to DXing.info. Unlike nearly all other shortwave broadcast stations, WJHR plans to transmit only on SSB. Current tests can be heard on the upper side band (USB). SSB is used because "it is far more economical and almost everyone can receive SSB", Mock explains. Mock says he really wants to hear from DXers how well the signal is getting out, and he will be printing QSL cards next year. Reception reports are welcome by email to wjhr@usa.com or by writing to Radio Station WJHR, 5920 Oak Manor Drive, Milton, FL 32570, USA. (DXing.info, December 12, 2009, edited on December 16, 2009)

WMLK Radio

WRNO Worldwide

Owner: Robert Mawire Ministries (<http://www.goodnewsworldoutreach.com/>)

WRNO (also known as WRNO Worldwide) is a commercial shortwave radio station which began international broadcasting on 18 February 1982 and continued regular broadcasting through the early 1990s from Metairie, Louisiana, with a continuation of periodic broadcasts starting in 2009. The WRNO call letters are still in use by the New Orleans station WRNO-FM; both were founded and originally owned by Joseph Costello III. Dr Robert Mawire's Facebook page says: "Dr Robert Mawire, Founder and President of WRNO, a Worldwide Global Broadcasting Platform, Gerizim Technologies and Good News World, a humanitarian organization serving 25 countries, author of "Top Secrets Revealed." He is a speaker of extraordinary demand from both governments and private organizations. His work has been featured on many National Television Networks and in newspapers worldwide"

WTWW

Owner: Leap of Faith, Inc. (George McClintock, chairman)

WTWW is a shortwave station located in Lebanon, Tennessee. Since November 2022, George McClintock has been operating the station. However, due to technical issues and George's health, the transmitter has been off-air on occasions. During this time the station has also been up for sale.

<i>Time/UTC</i>	<i>Days</i>	<i>kHz</i>	<i>Transmitter site</i>	<i>kW</i>	<i>Target area</i>
2300-0500	Daily	5085	Lebanon TN	100	Latin America & Caribbean

Update: 5085: George McClintock called Dec 31 with the latest from WTWW: from my hastily scribbled notes: running 60 kW on 23-05 UT nominal schedule. There was a frozen tuning cap on the #1 [other] transmitter. The ex-Continental engineer ran out of time, needs to come back for another day in 2024, when #1 could run 90 kW. Also plans to work on a Harris transmitter. KTWG Guam engineer is currently visiting Nashville two blox from George to look after someone. KVOH let the Harris they got melt down and disposed as scrap. WTWW has two transmitters from KNLS; might could put one of them for sale on EBay. Sale of property is stalled but still available. Antenna for #3 transmitter is actually on adjacent property, feedline OK. Feedlines for 1 and 2 are sagging, need to be pulled up out of reach for safety. Has potential client for 9475 but can't get it to run more than 10 kW yet (Glenn Hauser, OK, WOR)

Follow the Bible Ministries

Follow The Bible Ministries is a non-profit, non-commercial Christian Broadcasting Ministry. Their website explains "Our purpose is to freely proclaim Bible truth to as many people as possible, primarily through the radio broadcast media and the Internet. Our Bible studies are designed to give encouragement and to help people grow spiritually and to point them to the Savior, the Lord Jesus Christ".

Overcomer Ministry (Brother Stair)

The Overcomer Ministry website explains "From a small farm in the state of South Carolina in the United States of America, Brother Stair trumpets the message of the soon return of the Lord Jesus Christ. It is from his radio room that the Last Day Prophet of God is reaching every nation of the world. One message he has preached faithfully for over forty years and that is ... "Jesus Christ is Coming in your Lifetime. This is the Last Generation, The Last Hour. Prepare to Meet your God!". Ralph Gordon Stair (3 May 1933-3 April 2021), also known as Brother R. G. Stair, or simply Brother Stair, was an American radio evangelist based in Walterboro, South Carolina. Despite his death, the ministry continues to buy airtime on several transmitters to broadcast programmes which include many past recordings of Brother Stair.

The Overcomer Ministry buys airtime on several other shortwave stations, such as WBCQ, WINB, WRMI, WWCR and Channel 292 - see <https://overcomerministry.org/radio-schedule/> for further details.

Pan American Broadcasting

The purpose of Pan American Broadcasting "is to partner and assist ministries in their endeavor to proclaim and share the Gospel worldwide; providing ministries with radio, television and Internet broadcasting opportunities, thereby helping ministries achieve their goals of witnessing the greatest gift to mankind, Salvation".

University Network

William Eugene Scott (14 August 1929-21 February 2005) was an American pastor and teacher who served for almost 50 years as an ordained minister and broadcaster in Los Angeles, California. In 1975, Scott began a series of broadcasts which resulted in the creation of the University Network. By 1983, this network was broadcasting his sermons 24 hours a day via satellite to the United States and Canada, as well as to much of Mexico and the Caribbean. By 1990, his network was available to 180 countries, and by 1992 his sermons were being broadcast in several languages on AM, FM and shortwave radio. Drawing from nearly 30 years of recorded programming, Scott's radio, satellite and television ministry continues to be broadcast, although on different stations and at different times. Melissa Scott, his second wife from August 2000 until his death, is the successor of his ministry and President of the University Network.

Message from the VORW Radio International: Hello shortwave listeners! I wanted to share an exciting update about a new high power broadcast I'll be doing for listeners in Africa, Europe and beyond! Beginning Monday the 11th of December, 2023 and continuing every Monday – this radio program will now be heard across Africa, Europe & Beyond from a high power transmitter in Issoudun, France. The broadcast is 1 hour in length and I always consider it to be a light entertainment program. The aim of this radio show is to provide good music and occasional news commentary to listeners worldwide. Oftentimes, listener music requests are taken and played and all are invited to participate. Here is the broadcast schedule for this additional airing: Mondays 1900 UTC – 11920 kHz – Issoudun 100 kW – Africa, Europe, Middle East. For this airing I will resume QSL verification of reception reports, there will be a new QSL every month! Reception reports and feedback are most welcome at vorwinfo@gmail.com. That's all for today, I just wanted to let you all know that there's a new airing out there if you'd like something to listen to! John - VORW Radio International (via Alan Roe, BDXC & WOR iog's, 9 December 2023)
