South Asia on Mediumwave and Shortwave

This edition was updated on 12 January 2021 with thanks to Jose Jacob (DX-India) and Zenon Teles.

Pages 2-11 Country-order guide to mediumwave and shortwave stations in the South Asia
 Pages 12-17 Selected target broadcasts to South Asia
 Pages 18-23 Frequency-order guide to mediumwave radio stations in the South Asia

Afghanistan

Radio Television Afghanistan

Radio Television Afghanistan is the state broadcasting organisation of Afghanistan. It has one national radio station, Radio Afghanistan, and a number of provincial sub-stations which operate radio services. They broadcast material produced at provincial level, interspersed with news bulletins distributed by the Kabul-based news desk. These stations are usually closely affiliated with the Provincial Governors' Offices.

Radio Afghanistan (domestic service)

Transmitter Site: Kabul (Pol-e-Charkhi) - 400 kW.

Time/UTC	Days	Language	kHz
0030-1930	Daily	Pashto, Dari, other Afghan languages	1107

Provincial radio stations on mediumwave

kHz	Station	Location	kW
594	RTA R Faryab	Maymana, Faryab Province	5
909	RTA R Kunduz	Kunduz, Kunduz Province	10
909	RTA R Paktia	Gardez, Paktia Province	0.05
936	RTA R Zabul	Qalat, Zabul Province	10
945	Radio Talwsa	Sharana, Paktika Province	
1017	RTA R Ghazni	Ghazni, Ghazni Province	10
1044	RTA R Farah	Farah, Farah Province	7
1305	RTA R Kandahar	Kandahar, Kandahar Province	10
1386	Paktin Voice	Shikin, Paktika Province	5
1440	RTA R Nangarhar	Jalalabad, Nangarhar Province	10
1458	RTA R Khost	Khost, Khost Province	
1500	RTA R Badghis	Qala-i-Naw, Badghis Province	6
1503	RTA R Nuristan	Parun, Nuristan Province	0.1
1550	RTA R Herat	Herat, Herat Province	0.1
1575	RTA R Kunar	Asadabad, Kunar Province	10
1584	RTA R Balkh	Mazar-e-Sharif, Balkh Province	10
1584	RTA R Nimroz	Zaranj, Nimroz Province	2
1584	RTA R Ghor	Chaghcharan, Ghor Province	0.5

Note: all stations subject to confirmation.

Radio Afghanistan (external service)

Transmitter Site: Kabul (Pol-e-Charkhi) - 100 kW.

The Radio Afghanistan external service is currently off-air. It had broadcast on 6100 kHz at 1530-1600 in English and 1600-1630 in Urdu, with irregular broadcasts at 1630-1700 in Arabic and 1700-1730 in Russian.

IBB relays on mediumwave in Afghanistan

kHz	Station	Location	kW	Schedule (UTC)
621	IBB Relay	Tani, Khost Province	200	0100-0400 Deewa R (VOA) in Pashto 0400-1300 R Mashaal (RFE/RL) in Pashto 1300-1900 Deewa R (VOA) in Pashto
1296	IBB Relay	Pol-e-Charkhi, Kabul	400	0130-0230 R Ashna (VOA) - Dari 0230-1730 R Azadi (RFE/RL) - Pashto/Dari

See BDXC's separate guide to "Broadcasting in Afghanistan" for further details of radio services in Afghanistan, as well as a recent history of broadcasting in the country:
<http://www.bdx.org.uk/afghan.pdf>

Bangladesh

Bangladesh Betar

Bangladesh Betar is the state broadcasting service of Bangladesh. Domestic services are currently aired throughout the country on mediumwave, shortwave and FM.

Bangladesh Betar on mediumwave

kHz	Location	kW	Schedule (UTC)
558	Khulna	100	0030-0400, 0600-1715
630	Savar, Dhaka	100	0300-1300 (Commercial Service)
693	Dhamrai, Dhaka-A	1000	0030-0600, 0815-1730
819	Dhaka-B	100	0030-0610, 0815-1710 (1800-2100 temporarily suspended due to Covid 19)

1431	Bandorban	10	0530-1030

News in Bengali: 0100, 0300, 0400, 0500, 0600, 0900, 1000, 1200, 1430, 1600, 1700

News in English: 0200, 1100, 1530

SAARC News: 1235 in Bengali; 1520 (Mondays only) in English

Broadcasting on shortwave

Bangladesh Betar - Home Service

The Bangladesh Betar Home Service has nationwide coverage on mediumwave, shortwave and FM. However, between March 2019 and April 2020 and again since August 2020, the Home Service has been replaced by the External Service at 1230-2000 on its shortwave frequency of 4750 kHz (see below), leaving the Home Service on air at 0600-1230 only (subject to confirmation).

Transmitter Site: Shavar - 100 kW.

Time/UTC	Language	kHz
0600-1230	Bengali (with news in English at 1100-1115)	4750

Bangladesh Betar - External Service

Bangladesh Betar's External Service had a new Thomson 250 kW shortwave transmitter and rotatable antenna system installed at Khabirpur in 2012. However, since March 2019, the external service has not been heard on any of its usual shortwave frequencies from Khabirpur and has been observed using the domestic service frequency of 4750 kHz instead. The revised schedule is:

Transmitter Site: Shavar - 100 kW (ex- Khabirpur - 250 kW).

Time/UTC	Language	kHz	previous frequency
1230-1300	English	4750	15105 to South & South-East Asia
1315-1345	Nepali	4750	9455 to Nepal
1400-1430	Urdu	4750	15505 to Pakistan
1515-1545	Hindi	4750	15505 to India
1600-1630	Arabic	4750	7250 to the Middle East
1630-1730	Bengali	4750	7250 to the Middle East
1745-1900	English	4750	13580 to Europe
1915-2000	Bengali	4750	13580 to Europe

A report on the domestic radio network in Bangladesh by Pradip Chandra Kundu can be found in the December 2020 edition of the Indian DX Club International's [Asian DX Review](#). Recommended reading!

Bhutan

Radio Broadcasting was started by a group of young volunteers, known as the National Youth Association of Bhutan (NYAB) in November 1973. The station was operational only on Sundays with 30 minutes of news and music. The NYAB club office was transformed to radio studio at weekends. The 400-watt transmitter was rented from the local telegraph office. The station was called Radio NYAB. In 1979, the Royal Government recognizing the importance of the radio for development communication, incorporated the station under the Ministry of Communications. In 1986 with the commissioning of a 10 kW shortwave transmitter and a small broadcast studio, Radio NYAB was renamed as Bhutan Broadcasting Service (BBS). In March 1991, BBS acquired its permanent seat in Chubachu, Thimphu, and a 50 kW shortwave transmitter. In August 2007, a 100 kW shortwave transmitter with DRM capability was commissioned.

Bhutan Broadcasting Service

BBS radio broadcasts on shortwave daily from 0555 to approximately 1900 local time in three languages (Shar chop, Lhotsham and English).

Transmitter Site: Thimpu - 100 kW.

Time/UTC	Language	kHz
0000-0400 (0600-1000 BTT)	Shar chop	6035
0400-0800 (1000-1400 BTT)	Lhotsham	6035
0800-1200 (1400-1800 BTT)	English	6035
1200-1300 (1800-1900 BTT)	Shar chop	6035 - sign-off time varies

Ron Howard in California, who regularly monitors 6035 kHz to check for BBS, commented in a post to the WOR iog on 10 January 2021 that he had not heard them "for a long time".

Excerpt from the BBS programme schedule from bbs.bt that relates to the times of operation on shortwave

Programme Schedule: Radio Channel- 1 (Tshangla, Lhotsham & English)

A feature called "Radio in Bhutan" by Manfred Rippich appears on pages 30-32 of the 2021 edition of the World Radio TV Handbook

Diego Garcia

BFBS and **AFRTS** both operate FM stations on Diego Garcia. All AFRTS mediumwave and shortwave transmitters on Diego Garcia are inactive. AFRTS was last heard on shortwave 4319 kHz in December 2014.

India

All India Radio

All India Radio, officially known as Akashvani, is the radio broadcaster of India and a division of Prasar Bharati (Broadcasting Corporation of India), an autonomous corporation of the Ministry of Information and Broadcasting.

All India Radio services have been reduced significantly since 22 March 2020 due to the Covid-19 pandemic. This guide has been updated to include all current AIR services known to be operating on mediumwave and shortwave, although the situation is constantly changing and this guide may not reflect the very latest schedules (for the latest news, please subscribe to the dxindia iog, which has regular updates from Jose Jacob and Alokesh Gupta, as well as checking the DX India website at <https://www.qsl.net/vu2jos/>)

Recent news items

Come January 1, 2021, the airwaves in India will not be the same again as All India Radio is rebranding all its Home Services on MW /FM. Each State/ Union Territory (except Jammu & Kashmir and Chandigarh) will have a separate network of their own. The programs will be originated by the station in the capital city of each state which will be relayed by all other stations in that particular state. Now many AIR stations broadcast their own programs with occasional relays from New Delhi / State capital etc. This system will end on 31 December 2020. There will be also new 9 regional channels for entertainment, in addition to the Vividh Bharati Service. It may be noted that this system is already followed by Doordarshna TV. Please see more details in:

<https://www.deccanherald.com/national/all-india-radio-all-set-for-rebranding-streamlining-of-services-925631.html>

(Jose Jacob, DX-India, 10 December 2020)

It may be noted that there will no changes to All India Radio stations / programming as anticipated from 1 January 2021.

<http://prasarbharati.gov.in/AIR/index.php>. (Jose Jacob, DX-India, 31 December 2020)

Several changes to timings of News Bulletins on All India Radio Home Service is noted from 1 Jan 2021. The monitored details are given in: <https://qsl.net/vu2jos/airnews2021.pdf>. (Jose Jacob, DX-India, 2 January 2021)

Asian DX Review - January 2021 edition now available for download from Indian DX Club International's Website
Download Link: https://idxci.in/wp-content/uploads/2021/01/ADXR-Vol-39-No-555-January-2021_1.pdf. Asian DX Review [ADXR] monthly newsletter from Indian DX Club International is published monthly in digital format and distributed free. Radio enthusiasts can send in their write up, feedback, reviews and anything related to radio to: idxc.international@gmail.com. (Alokesh Gupta, 3 January 2021, via DX-India)

On January 5, heard AIR Srinagar (4950.0) from tune in at 0125 till 0215* UTC. Same time format as originally heard; for many years now this format has not varied at all; today OM with assume the news, YL with assume the news, reciting from the Qur'an, Islamic music and chanting, etc.; only very slight Angola QRM from the low side, so best in USB. Fairly easy to ID due to consistent format and 0140 distinctive reciting from the Qur'an. My local sunset was at 0105 UTC, while Srinagar sunrise was at 0206 UTC. After AIR signed off, heard Angola (4949.73) with repetitive pop African music. (Ron Howard, Asilomar State Beach, Calif., USA, via DX-India)

All India Radio has started clearing QSL cards of old reports which were kept pending due to Covid-19 issues. Today I got 2 QSLs by post for my old reports from Director, Spectrum Manager & Synergy, AIR Directorate General, New Delhi. Hope others also got / will get replies soon. (Jose Jacob, DX-India, 8 January 2021)

Its ta ta and bye bye to the following stations of All India Radio on SW:

Aligarh : 250 kW

Panaji: 250 kW

Chennai: 100 kW

(Jose Jacob, DX-India, 9 January 2021)

All India Radio on Mediumwave

All India Radio has many services in a number of languages, each serving different regions across India. Several mediumwave transmitters are now scheduled to carry out both analogue and digital transmissions.

Latest news: AIR Chinsurah 594 kHz carrying AIR Kolkata 657 kHz programmes from 29 December 2020: Due to the breakdown of the 200 kW transmitter of AIR Kolkata operating on 657 kHz (Gitanjali Channel), this service is broadcast by AIR Chinsurah (located near Kolkata) on 594 kHz, 1000 kW from 5 pm of 29 Dec 2020. The DRM Service on 648 kHz is also off air of course. Hence Maitree Channel, the External Service in Bengali by AIR Chinsurah is available only in live streaming until the faulty transmitter is repaired. (Pradip Chandra Kundu, VU3IOP, Asian DX Review, January 2021)

DRM tests are reported by DX India to be conducted at 1000-1010 on 15410-bgl and 1145-1155 on 15030-bgl to NE Asia, and at 1745-1755 on 7550-bgl to Europe

Target broadcasts from India to Azad Kashmir

Voice of Kashmir (Radio Sedayee Kashmir)

The Voice of Kashmir is a radio station operated by the Indian government with anti-Pakistani programming aimed at Azad Kashmir (administered by Pakistan). It first went on air in late 2002 via the shortwave transmitters of All India Radio.

Transmitter Sites: Delhi-Khampur (dkh) - 250 kW.

Schedule	Languages	Target	kHz
0230-0330	Kashmiri and Dogri	Azad Kashmir	6030-dkh
0730-0830	Kashmiri and Dogri	Azad Kashmir	6100-dkh
1430-1530	Kashmiri and Dogri	Azad Kashmir	6030-dkh

Target broadcast to Jammu & Kashmir

Radio Free Kashmir

Radio Free Kashmir is a programme produced by Kashmir Civitas.

Transmitter Sites: Kostinbrod, Bulgaria (sof) - 50 kW (brokered by IRRS Shortwave).

Schedule	Days	Languages	Target	kHz
0330-0430	Sun	Kashmiri/English	Jammu & Kashmir	7370-sof

Maldives

Public Services Media is the public broadcasting service of the Maldives. It replaced the Maldives Broadcasting Corporation on 28 April 2015. Services are aired on mediumwave and FM. Shortwave transmissions to Maldavian communities in South Asia were discontinued several years ago when TV Maldives appeared on satellite.

Dhivehi Raajjeyge Adu (Voice of the Maldives)

Raajjé Radio is the the state-owned radio station of the Maldives.

Transmitter Sites: Malé - 10 kW.

Schedule	Days	Languages	kHz	Notes
24 hours	Daily	Dhivehi/English	1449	News in English is schedule at 1300-1310 UTC

Nepal

Radio Nepal

Radio Nepal is the state-owned radio broadcasting service of Nepal. It broadcasts of mediumwave and FM, whilst the shortwave transmission (most recently on 5005 kHz) has been discontinued.

Radio Nepal on mediumwave

kHz	Location	kW
576	Surkhet, Mid-Western Region	100

Pakistan

Pakistan Broadcasting Corporation

Pakistan Broadcasting Corporation, also known as Radio Pakistan, is the public radio broadcasting network of Pakistan.

News and Current Affairs Channel

PBC launched its News and Current Affairs Channel (NCAC) in November 2000. The channel was converted into the National Broadcasting Service in 2008 with current affairs contents mixed with entertainment and cultural programmes. The News & Current Affairs Channel was revived in 2013. Presently, NCAC broadcasts 13 hours of programmes from 0300-1600 UTC from Islamabad and 8 hours daily from Provincial Headquarters. Programmes consist of breaking news, hourly news bulletins, live coverage of important events including press conferences by government and opposition, talk shows, discussions/interactive discussions, commentaries, interviews, live calls and on the spot coverage. NCAC frequencies are listed on the PBC website as 639, 756, 1152, 1170 and 1332 kHz. The daily schedule for NCAC can be checked at radio.gov.pk/current-affairs

Radio School transmission

Radio Pakistan has started a four-hour Radio School test run transmission to promote distant learning in the country. To this effect, a Memorandum of Understanding was signed between Radio Pakistan and the Ministry of Federal Education and Professional Training to promote distant learning in the country. Under the MoU, Ministry of Federal Education and Professional Training will provide the content of the transmission to impart primary level education to children. These educational programmes will be broadcast from various mediumwave and FM networks of Radio Pakistan from 0500-0700 UTC and then as a repeat broadcast from 0900-1100 UTC seven days a week. Radio School is an important initiative taken in light of Prime Minister Imran Khan's vision to impart education to the children of far flung and backward areas and address the issue of providing education to children during the pandemic. It will also help ensure provision of education to less privileged children and girls. Radio School is aired on mediumwave on 567, 585, 711, 981, 1053, 1134 and 1251 kHz. (radio.gov.pk, 25 November 2020)

Voice of Qur'an

The status of the Voice of Qur'an programme on mediumwave is subject to confirmation. It had previously been listed on 585, 630 and 756 kHz between 0200-0700 UTC. Can anyone confirm that it is still aired on mediumwave at all?

1602	Abbotabad, Khyber-Pakhtunkhwa	0.25	0845-1415

Note: * WRTH 2021 indicates that these three transmitters are still running on low power.

Times of operation are subject to confirmation [monitoring of Radio Pakistan's MW transmitters is ongoing]

Radio Pakistan has programming mainly in Urdu and English, with provincial stations also broadcasting news and other programmes in their regional languages as well.

News in English is at 0300, 0800, 1100, 1300 and 1600 UTC.

Radio Pakistan - External Services

Radio Pakistan shortwave transmissions are currently suspended, reportedly pending the refurbishment of facilities.

Sri Lanka

Sri Lanka Broadcasting Corporation

Sri Lanka Broadcasting Corporation is the public broadcasting service of Sri Lanka. SLBC operates on shortwave are directed to South Asia and to the large expatriate community in the Middle East.

Transmitter Site: Trincomalee (trm) - 125 kW; Putalam (put) - 35 kW.

Time/UTC	Days	Languages	Target	kHz
0030-0100	Daily	Bengali/Hindi	South Asia	11905-trm
1700-1830	Daily	Sinhala (City FM)	Middle East	11750-trm

The transmissions at 0200-0230 in Hindi on 11905 kHz, 1115-1200 in Hindi/Malayalam/Tamil/Telugu on 9695 kHz, and 1700-1800 in Tamil (Thendral FM) on 11835 kHz are currently off-air. On mediumwave, Zenon Teles says that the Friday-only transmission in Tamil on 1125 kHz is to be discontinued.

SLBC Mediumwave Relay Station - Putalam

Sri Lanka has agreed to sell airtime on a former Deutsche Welle relay station in Trincomalee in the north east of the island to UK based Encompass Digital Media Services, London. Germany's DW built the relay station in Sri Lanka in 1980 for mainly for international shortwave (HF) broadcasting. It also has a medium wave transmitter for South Asia. The station was given to state-run Sri Lanka Broadcasting Corporation in 2012. London based Encompass Media has proposed to transmit shortwave and mediumwave programmes from the station. It has offered to pay \$49,000 and \$16,000 dollars a month for the airtime. The Cabinet of Ministers had approved the proposal in November 2020. (Economynext.com 29 December 2021 via Alokesh Gupta)

Selected target broadcasts to South Asia

The shortwave selections here have been taken from HFCC registrations and MW schedules that indicate broadcasts to CIRAF Zone 41 in English and South Asian languages. This is not a comprehensive list of all transmissions!

World Christian Broadcasting - Madagascar World Voice

MWV has one transmission directed to South Asia in English.

Transmitter site: Mahajanga, Madagascar (mww) - 100 kW.

Times/UTC	Days	Language	kHz
0300-0400	Daily	English	13760-mww

TWR India on shortwave

TWR India shortwave transmissions were reduced on 3 January 2021. In an email to Zenon Teles, Mike Sabin, the TWR Asia Broadcast Technical Operations Director, confirms that some shortwave transmissions have been discontinued and says "The original plan was to continue these broadcasts as listed through the entire season. However, some sponsors have stopped covering these broadcasts. We must end them since we are not getting paid for them beyond 3 January. Some will be moved to other broadcast sites on different frequencies". The current schedule as per HFCC registrations is:

Transmitter site: KTWR, Guam (twr) - 250 kW (DRM transmission is 90 kW).

Time/UTC	Days	Language	kHz
1026-1056	Sun	English	13800-twr - DRM (includes "DXers Diary" at 1026 UTC)

British DX Club

South Asia on Mediumwave and Shortwave

Compiled by Tony Rogers

with thanks to Dave Kenny, Alan Pennington and members of the British DX Club,
and also to Jose Jacob and Zenon Teles for their assistance in keeping this guide up-to-date.

and acknowledging the following for regularly providing news and information
on the current DX scene:

Asiawaves (Alan Davies)
Bulgarian DX Blog (Ivo Ivanov)
DX India (Jose Jacob)
DXplorer (Jerry Berg)
EiBi Schedules (Eike Bierwirth)
Hansjörg Bieners DX Digest
hard-core-dx.com
MWList (Günter Lorenz)
Nagoya DXers Circle (including Aoki List)
Pacific-Asian Log (Bruce Portzer)
RUS-DX (Anatoly Klepov)
Shortwave Central (Gayle Van Horn)
World of Radio / WOR io group (Glenn Hauser)
WRTH Online (for latest updates to WRTH)
WWDXC Top News / BC-DX (Wolfgang Bueschel)
Ydun's Medium Wave Info (Ydun Ritz)

anything or anyone missed? ... please let me know!

This guide provides information about the mediumwave and shortwave radio scene in South Asia.
Some of this could become outdated with time. If you could provide updated information
or spot any errors, please contact the editor at tony@bdxc.org.uk. Thank you!
